BUSINESS DEVELOPMENT / CLINICAL EXPERTISE / PRODUCT COMMERCIALIZATION

New Business Leadership and Clinical Expertise Improving Hospital Productivity and Performance

Strategic Market Penetration / Technology Procurement / New Product Launches / Go-to-Market Programs

Clinical Expertise & Oversight	Business & Technology Advancements
Recognized for the ability to contribute thought leadership to the development of innovative clinical systems, enabling the delivery of highly effective patient care. Translates requirements into specifications for systems and integrates knowledge with research.	Led the development and deployment of solutions that cluster information in disease and episodic categories for benchmarking clinical severity and variance analysis. Trained medical professionals in advanced life saving protocols and techniques.
Leading Strategist and Innovator in Large –Scale Initiatives <ul style="list-style-type: none">Led the development of strategies in connection with information technology planning, management, and integration into clinical information systems, including a computerized physician order entry and clinical analytical databases to facilitate performance improvement and outcomes management.Championed the design, implementation, and ongoing improvements to operations support systems of clinical and administrative information solutions. Collaborated with technology staff to ensure clinical requirements were integrated into new systems.Advocated for the adoption of innovative systems and processes to support infrastructure, medical informatics concepts, experience, and knowledge were integrated with clinical and business needs.	

VALUE DRIVERS

Clinical & Administrative Leadership Project Management Technical & Business Solutions

Articulate leader well versed in developing strategic roadmaps in collaboration with senior leadership to develop, plan, and implement innovative solutions to exceed levels of patient care and management. Serve as a subject matter expert regarding medical informatics trends, experiences and approaches. Utilizes physician advisory groups to explore innovations in clinical systems to support excellence in advancements in research and patient management. Generates consensus for the practical application of new ideas and best practices.

PROFESSIONAL EXPERIENCE

Director, Commercial and Business Development • 2004 to Present

OVERHILL DEPARTMENT OF ANESTHESIA, PERIOPERATIVE INFORMATICS, New York, NY

Key Challenge: Recruit business and technology partners for software enhancement and redesign efforts. Successfully commercialize system for use within the hospital network.

- **Commercialized Overhill Perioperative Information Management System (VPIMS / Vigilance)** software to Company in Birmingham, Alabama.
 - Successfully identified and secured \$2.5 million in external funding for the Company start-up venture.
 - Realized \$1.2 million in lost and underbilled services subsequent to the system's implementation. Instituted 'operative reminders', including preoperative antibiotics, which reduced surgical site infections by 50%+.
 - Identified and recruited partners to facilitate targeted and effective software enhancements and updates to meet the needs of a dynamic hospital environment. Dashboard provided real-time schedule, OR and PT status.
 - Created a sales pipeline and marketing strategy, which facilitated the adoption of and implementation of the system at ABC University Hospital, ABC Children's Hospital, DEF Surgery Center, Five Oaks Surgery Center, Wellness / Spring Hospital, and Hot Springs Surgery Center.

Associate Director, Sponsored Clinical Research, Department of Anesthesia • 2007 to Present
ABC DEPARTMENT OF ANESTHESIA, PERIOPERATIVE INFORMATICS, New York, NY

Key Challenge: To utilize academic talent and professional resources in IT, patient safety, and research resources to form a business model for R&D. Work to form integrity driven partnerships between academics and industry of each.

■ **Performed clinical drug trials, device trials, and intellectual property work.**

- Established a contract with Korea Company for advanced development of algorithmic ‘smart alerts’ for real time patient monitoring. Performed a phased research project with capital valued at \$500,000+ and IP sharing for advanced monitoring.
- Spearheaded a joint research project with AOI Microsoft on the development of a computerized Sepsis monitoring program for patients throughout the hospital. Transitioned from first phase with published results to second phased distribution to other patient populations.
- Created architecture and data distribution format to coordinate information sharing with six hospital systems and IT groups.
- Successfully generated funding from DEF and other institutions to create a perioperative database as part of creating a regional example of medical records sharing.

Finance Director, Board Member, Founder • 2004 to Present
ADR INCORPORATED, New York, NY

Key Challenge: Develop technology of Anesthetic Gas Reclamation in real time, and obtain US and international patents.

- **Founded company utilizing patented new technology** to reduce environmental impact of hospital and outpatient anesthesia. Designed the system to integrate with hospital waste gas system. Built business and marketing models, forecasted revenues from initial sales, reclaimed anesthetic gasses, and potential carbon credit exchange revenue in Europe and the US. Devised market entry strategies.
 - Added value as part of building a patented valve for installation on anesthesia machines, the condensation reclamation system. Obtained FDA approval for the valve and led a Phase I clinical trial at Company.
 - Created detailed business start-up plan and leveraged strategic alliances to raise investment capital. Bootstrapped the company on private capital funding, and negotiated an ownership percentage with OPERON of South Korea to produce the condenser. Received coverage on Fox News and in the *Magazine and Alumni* magazine.

ADDITIONAL EXPERIENCE
